

	<b>Workshop 1A: Thursday, 11:30 – 12:20</b>
<b>105</b> 8, 9, 10*  30	<b>Conflict: Its Cause and Cure</b> <u><i>Evangelist Matt Galvan; Dothan, AL</i></u> No matter the organization nor your position in that organization, conflict arises wherever people are. Whether the conflict be between leadership and subordinates or between peers, conflict has the same cause that can result in disastrous consequences if not dealt with properly. So, should you be an unwilling (or willing) participant in a dispute or a leader who is expected to address a quarrel, this workshop will give practical steps for resolving conflict amongst the staff at Christian schools.
<b>107</b> 8, 9*  35	<b>Developing a Personal Philosophy of Teaching</b> <u><i>Dr. Brian Carruthers; Bob Jones University, Greenville, SC</i></u> Why do you do what you do? It is important that a teacher be able to articulate a Biblically based philosophy of teaching that will help guide future decisions regarding students, curriculum, strategies, and the classroom. This workshop will help participants begin the process of drafting a personal philosophy of teaching.
<b>126</b> 4, 8, 9*  30	<b>Fall Fine Tuning</b> <u><i>Miss Cindy Quinlan; Abeka, Pensacola, FL</i></u> Several weeks into the school year, now is a great time to assess how things are going in your classroom. Occasionally, major changes are in order, but often simply eliminating small nuances or overlooked habits can get you closer to the reality of a disciplined, welcoming classroom. Adjust the atmosphere of your class by bolstering your authority and presence with these simple strategies and eliminations.
<b>128</b> 9*  30	<b>Perfection or Excellence (for ladies)</b> <u><i>Mrs. Jan Van Delinder; Sunshine State Association of Christian School, Callahan, FL</i></u> In our fast-paced world, our multiple roles as teachers, wives, mothers, and grandmothers seem to pressure us in all directions. What are our priorities? How can we know we're striving to achieve perfection rather than excellence? What is our motivation? This is a forthright workshop examining God's view versus ours.
<b>154</b> 6, 8, 9*  45	<b>Supporting Struggling Learners: Intervention Plans for Christian Classrooms</b> <u><i>Mrs. Amy Wall and Mrs. Samantha Thomas; Be the Light Education, LLC, Manassas, VA</i></u> In this presentation, Christian educators will learn how to identify students facing learning and literacy challenges and develop practical intervention plans, even without the presence of formal special education programs. Educators will be guided through the process of screening for learning difficulties, crafting simple yet effective strategies for academic support, and setting attainable goals to help students succeed. By focusing on early identification and targeted interventions, this session provides essential tools to foster a supportive, Christ-centered learning environment where all students are given the opportunity to thrive academically and spiritually.

<b>203</b> 8, 9, 10*  32	<b>Creating a Team of Disciples, Not Just Teachers</b> <u><i>Mr. Tim McPhillips; Maranatha Baptist University, Watertown, WI</i></u> Are you feeling overwhelmed by the demands of educating your students, communicating with parents, and managing the administrative tasks assigned to you? As a Christian school teacher, have you ever found it challenging to stay focused on your school's mission, or has your personal walk with Christ been overshadowed by the daily responsibilities of your role? Understanding the unique pressures you face, I invite you to join me for a workshop dedicated to the spiritual well-being of teachers and staff. This session will address the challenges of fostering meaningful discipleship among your peers. We will explore Biblical passages relevant to educators and share practical strategies for implementing a discipleship plan within your team.
<b>207</b> 8, 9, 10*  42	<b>But I Don't Want To!</b> <u><i>Dr. Brian Kosa; Heritage Christian School, Woodbridge, VA</i></u> There is so much going on in our world and in the lives of parents that discipline that was once expected and taught is no longer taught and often no expected. This session will focus on what we are to do as teachers to reach our students going forward. Teaching discipline is greatly needed, but many are not wanting discipline. We will outline several items which the teacher can use to build this characteristic in the lives before them.
